

# HealthMine is the wellness platform for health plans and employers

We make population health data actionable to sponsors of health plans. Meaningful data empowers your members' engagement, the starting point to improve health outcomes and lower costs.

## Health Plans

At a major insurance provider, HealthMine helped discover population risk, grow engagement, and lower healthcare costs. In just three years:

- 80% of plan members earned incentive points
- Hospital readmissions decreased by 50%
- 7,100 plan members discovered undiagnosed diabetes
- The plan saved \$100+ million in healthcare costs

## Employers

In one employer healthplan, HealthMine improved health and lowered costs for more than 8,000 employees and their families including:

- 31% decrease in hospital admissions
- 48% higher cancer screening compliance than the national average
- 35% higher diabetes disease management than the national average
- \$2.8 million in benefit savings returned to employees in one year alone
- More than \$5 million in healthcare cost savings over the past five years
